1	pliable near1 magnetic near1 layer
2	pliable near1 magnetic
3	(360/15 or 360/16 or 360/17).ccls.
4	((360/15 or 360/16 or 360/17).ccls.) and protrusion\$4
5	protrusion with depression
6	(protrusion with depression) and (magnetic or magneto or transfer or head or film or layer)
7	(protrusion with depression) same(magnetic or magneto or transfer or head or film or layer)
8	(protrusion with depression) same (magnetic or magneto or transfer or head or film or layer)
9	magnetic with transfer with medium
10	(magnetic with transfer with medium) and (channel with depth)
11	(magnetic with transfer with medium) and ((channel or depression) with depth)
12	(magnetic with transfer with medium) and ((channel or depression))
13	(magnetic with transfer with medium) and ((channel or depression) with nm)
14	(magnetic near2 transfer near2 medium) same (depression or channel) same (nm or nanometer)
15	(magnetic near2 transfer near2 medium) same (depression or channel)
